

Assignment 1

Tutorial 1

Sign your work! Please add a comment with your name to each XML document you submit.

1. Tutorial 1 itself (completed with the class) -- 20 pts.
2. Review p.36 -- 50 pts.
3. Case Problem 1 p.39 -- 50 pts.
4. Case Problem 3 p.44 -- 50 pts.
5. Tree structure diagram for Case Problem 3 -- 10 pts.

Total: 180 pts.

Notes on Case Problem 3

1. This Case Problem is about debugging - weeding out errors from your XML code. You can use either Visual Studio or Exchanger XML Editor instead of a browser (as recommended in the book). This approach will save you a lot of time and effort.
2. Please draw the tree structure of the document. Use any software you are familiar with that would allow you to create textboxes and vertical lines easily. My tool of choice in this case is PowerPoint. If you are using software other than PowerPoint please make sure to submit your work in some universal format: PDF, JPG, or GIF. This will allow me to open files you submitted and grade your work. You can use jazz_tree_diagram.pptx file in Week 1 folder as an example.
